# The Unknown Risks of Remediation

Risky business:  
Remediation  
projects are fragile

Let's paint a  
picture in our  
minds

# Requesting your sign off

**What's the current most used solution to manage the process?**

**Excel spreadsheets**

Data Access:  
Spreadsheet crashing,  
failing to open

Lack of System Controls:  
Impacting data integrity  
and one version of the  
truth

Not Commercial Grade:  
Can't manage large  
volumes of cases

## Why Evolve?

Evolving your Remediation infrastructure isn't a nice to have, there are tangible benefits to be gained.

**Reduce  
Risk**

**Reduce  
Disruption**

**Improve  
Efficiency**
